

Finger Patterns

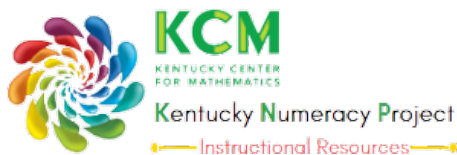

I am learning to determine what goes with a number (1 to 5) to make 5.

Materials:

fingers

Directions:

1. Teacher or student is the leader.
2. Leader says, "Show me __ fingers." (in blank say numbers 1, 2, 3, 4, or 5)
3. Players have their hand in a fist above head. When Leader says a number, show it with fingers.
4. Leader says, "How many fingers are up?"
5. Leader says, "How many needed to make 5?"
