

Fill 20 Game (add & sub)

**I am learning to add and subtract within 20
by counting.**

Materials:

"Fill 20" game board, 20 counters per player, cube labeled "+2, +3, -1, -2, -3, -4"

Directions:

1. Get a game board and bag of counters for you and your partner from the folder.
2. Fill your game board with 20 counters.
3. On your turn, roll the number cube.
4. Tell your partner how many counters will be on your board after you either add or subtract the number rolled.
5. Add or remove the amount of counters from your roll and see if you were correct.
6. Take turns with your partner.
7. The first player to empty a game board wins.
