KNP ID # A 3304.5, Pink Task Group: Fill 20/30 Game Kentucky Academic Standard(s): KY.1.0A.3, KY.1.0A.4, KY.2.0A.2 Numeracy Target: Add and subtract using a range of composite strategies

Fill 30 Game (find the difference)

I am learning to subtract within 30 using mental computation strategies.

Materials:

"Fill 30" game board, 30 counters per player, 1 cube labeled "10, 11, 12, 13, 14, 15" and another labeled "15, 16, 17, 18, 19, 20"

Directions:

1. Get a game board and bag of counters for you and your partner.

On your turn, roll both number cubes and find the difference between the numbers and put that many counters on your game board.

- 3. Tell your partner how you found the difference between the two numbers.
- 4. Take turns with your partner.
- 5. The player who fills a game board first wins.
