

Fill 30 Game (distance from decuples)

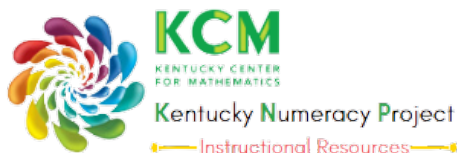

I am learning to determine how far any number is from the nearest multiple of 10.

Materials:

"Fill 20" or "Fill 30" game board, 30 counters per player, cards or tiles with numbers in range 1 to 100

Directions:

1. Get a game board for you and your partner.
2. Put all the number cards/tiles face down on the table.
3. On your turn, choose 1 number card/tile.
4. Tell how far the number is from the nearest multiple of 10 and put that many counters on your game board.
5. Take turns with your partner.
6. The first player to fill a game board wins.
