

Bingo Addition (2-12)

I am learning to count the dots on two dice to find the total within 12.

Materials:

Bingo Boards filled with numerals 2-12, Bingo covers, two large dot dice (for example, 5" foam dice)

Directions:

1. Each player should have a Bingo board (2-12) and covers. Also get two large dice.
2. Player 1 rolls the dice and tells the total. All players cover the total.
3. Players take turns rolling the dice and telling the total. Each time all players cover the total.
4. Players continue taking turns, the first player to have a Bingo wins.
