

## Bead cards (facile addition)

I am learning to use composite strategies to add (and subtract) within 100.

### Materials:

bead cards, Set A (15 to 26)

### Directions:

1. Shuffle cards and place in a stack face-down.
2. On your turn
  - Draw a card. Look at it briefly and then turn card face-down (or place it under a cover).
  - Draw a 2nd card. Look at it briefly and then turn card face-down (or place it under a cover).
  - Determine the total.
  - Uncover cards to check your answer.
  - Write a matching number sentence.
3. If directed by teacher, find the total of 3 or 4 cards in all.
