

Sorting Even and Odd

I am learning to count by twos by imagining the number of markers (people).

Materials:

cowboy counters, card cover

Directions:

1. Get cowboy counters and card covers.
2. Player 2 hides your eyes.
3. Player 1 put out a secret number of cowboy counters and cover all of them.
4. Player 2 opens your eyes. Player 1 give player 2 a quick peek at the covered counters.
5. Player 2 tells how many cowboy counters are under the cover.
6. Player 2 imagines the cowboy counters and tells how many boots they have altogether.
7. Uncover and check the number.
8. Repeat two more times.
9. Switch places and continue.
