

Making Rectangles

I am learning to tell the number of square units in a rectangle matching a written multiplication expression.

Materials:

Flash Cards - Multiplication Area

Directions:

1. Get Flash cards – Multiplication Area
2. Player 1 take a multiplication card and tell the number of square units that the rectangle would have.
3. Player 2 take a multiplication card and tell the number of square units that the rectangle would have.
4. Take turns and continue.
