Quick Images

I am learning to find the product and/or quotient.

Materials:

Multiplicative quick images, writing surface

Directions:

1. Get images and writing material.

2. Player 1 takes one of the images and describes it in words.

    (Ex. There are 5 stacks of 3 books)

3. Player 1 asks a question

    (Ex. How many books in all?)

4. Player 2 will answer the question

    (Ex. There are 15 books in all.)

5. Player 1 can show the image to check.

6. Players can take turns and repeat.
