

## Composite Cookie Company

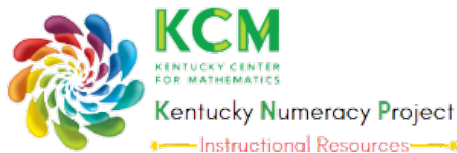

I am learning to recall many basic facts for multiplication and division and relate them to real-life situations.

### Materials:

multiplication and division expression cards, writing space

### Directions:

1. Shuffle the cards, put them in a stack, face down, and draw a card.
2. Find the product or quotient.
3. Write a number story to match the expression.
4. Draw a different card and repeat.
