

Tiling - Multiplication War

I am learning to mentally multiply two numbers.

Materials:

Playing cards 2 to 9 only, 4 each

Directions:

1. Shuffle the deck containing 32 cards (4 each of numbers 2 through 9).
2. Deal the cards so each of two players has 16 cards, placed face-down.
3. Both players turn over two cards from their stack.
4. Each player multiplies the two cards together and announces the total.
5. The player with the highest total keeps all four cards.
6. Repeat steps 3 through 5 until all cards have been played.
7. Reshuffle the “won” cards as needed and continues until one player has all the cards.
