

## One Thousand Beads

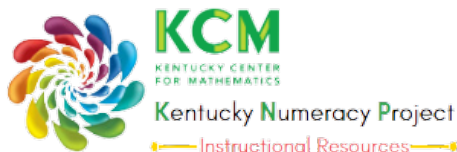

I am learning to match the written numeral to the quantity in the range 1 to 1000. I am also learning to add and subtract 10 and 100 without counting.

### **Materials:**

Ten 100 Bead Strings

### **Directions:**

1. The teacher will flash an amount (between 100 and 1000) using several 100 bead strings.
2. Write the matching number.
3. Alternatively, students can be asked to build a number using bead strings. Ask questions such as "What would be 10 more/less? What would be 100 more/less?", then make the corresponding change with the beads.
