

## Fraction Squares - What fraction part am I?

I am learning to name a fractional part, when using Fraction Squares Pieces, given the part and the whole.

### Materials:

EAI Fraction Squares Pieces (Blue, Brown, Yellow, Red and Orange layers), Activity sheet (1 per student)

### Directions:

1. Get an activity sheet and the set of rectangles.
2. Get the Blue Square and the Yellow Rectangle. Thinking about area, if the Blue Square is ONE WHOLE, what is the fraction name of the Yellow Rectangle? How do you know? Does your answer agree with the example answer given?
3. Repeat for each row, paying close attention to the whole for every question.
